SUMMARY

Dedicated and passionate fourth-year Computer Science Engineering student. Currently gaining hands-on experience as a React Developer Intern, specializing in building dynamic, responsive user interfaces and managing complex admin dashboards. Proficient in React.js and the MERN stack, with a proven track record of contributing to live client projects

EXPERIENCE

Marwadtech | React Developer Intern | Started : 15 September (Ongoing) | [Sumerpur, Rajasthan]

- TeaTech Client Web: Spearheaded the frontend development for the TeaTech client site by implementing functional components and React Hooks, which optimized page transitions and provided a seamless, mobile-responsive user experience for live users.
 - Selvi Biotech Admin Panel: Engineered a high-performance Admin Dashboard for Selvi Biotech using React and REST APIs to manage complex datasets; streamlined internal operations by creating intuitive data-table views that reduced data entry time for staff..
 - DSD Mobile Application (QA & Data Management):
 - 1.Executed comprehensive manual end-to-end testing to identify UI/UX bugs and functional inconsistencies prior to production.
 - 2.Leveraged Postman to perform API testing and resolve critical data mismatch issues between the backend and frontend.
 - 3.Analyzed JSON responses to ensure data integrity, collaborating directly with developers to fix synchronization errors.
-

PROJECTS

NoteHive

- Developed a notes-sharing platform to allow students to upload and access academic materials securely. Implemented secure user authentication and optimized MongoDB queries, which achieved faster data retrieval and a seamless navigation experience.

HealthX

- Created a healthcare management application to facilitate online doctor appointments. Integrated real-time booking functionality and a mobile-first UI, ensuring the application handled availability logic correctly while maintaining design consistency across screen sizes.

Authentication Web App

- Built a high-security application focused on user lifecycle management, including sign-ups and password resets. Integrated a 6-digit email verification code system and robust session management, which successfully prevented unauthorized access and enhanced overall user data security.
-

EDUCATION

Bachelor of Technology in Computer Science and Engineering

CLGIET, Bikaner Technical University
[Sumerpur, Rajasthan]

2022-2026

- Current CGPA: 8.04
 - Relevant Coursework: Data Structures, Algorithms, Web Development, Database Management Systems, Computer Networks, Object Oriented Programming
-

ADDITIONAL INFORMATION

- **Technical Skills:** Proficient in MERN Stack, JavaScript, React, Node.js, MongoDB, Postman, RESTful APIs, Git, Firebase, and responsive web design.
- **Data & Operations:** Advanced Excel & Google Sheets, Inventory Management Systems (IMS), Procurement Workflows, and Data Integrity Analysis.
- **Activities:** Independently built 4+ web applications featuring secure authentication and complex UI systems.
